

The Performance set it is a car audio speaker system designed to introduce you to the Seas Lotus experience. Sharing technology used extensively in our domestic drive-units, this set offers outstanding sound reproduction and value.

The PS165/1 set contains:

- 2 x PW165/1. 165 mm Woofers
- 2 x PT27F. 25mm Tweeters.
- 2 x PX3.0 Crossover Networks.
- 2 x Lengths of Special O.F.C Tweeter Cable
- Grilles
- Set of Mounting Hardware.

The frequency responses above show measured free field sound pressure for the RW165/1 and RT27F with cross over. The graph is also showing the tweeter adjustments available in the crossover. Input 2.83 V_{RMS}, microphone distance 0.5m, normalized to SPL 1m. The impedance is measured using a 2V sine signal.

Frequency Range	40 - 25000 Hz	Impedance	4 ohm
Short Term Max Power *	250 W	Mounting depth	76 mm (21.5 mm)
Long Term Max Power *	80 W	Cut out diameter	146 mm (46.3mm)
Crossover Frequency	2.5 kHz		

*IEC 268-5
