

Confirmation school brings new experiences and friends to 15 year olds' lives. In it they learn what Lutheran religion means, ponder over their relationship with God and in the end after confirmation have their first communion. In Tampere about 80 % of 15 year olds attend the school in the city, a camp or even abroad. Afterwards teenagers can learn group leader skills and continue pondering religion and life in a special group leader course.

Join the activities!

Young people gather every week in youth cafes and bible study circles. In cafes you can meet with friends, play games and sing. Camps and trips are organized in the weekends to our own camp sites or some other special location.

Young adults and students

Young adults' and student work have their own brand "UusiVerso.fi" (New Weed) and they tell about their work in the website. All around the city are masses, courses and events especially targeted to young adults and students.

One big family

The youth work in Tampere parishes

Clubs are fun!

Musical education

Musical education takes care of versatile musical teaching both individually and in groups. There are several choirs, dozen gospel-groups and a few troubadours in parishes throughout the city.

See you in mass!

Services, masses and prayer-groups offer a break from everyday hustle. You can tend to your connection to "up-stairs". God is always available.

Messi

Messi is a place for guidance and different kinds of activities. It thrives to search and meet with children, teenagers and families that are in need of any kind of support. Under the same roof works AKU – guidance for education –, YMCA's The Point café and Tampere parishes' social work for families and young people.

Scouting

Scouting offers various courses and unforgettable experiences that last through life.

In schools

Our youth workers and priests visit religion classes, give morning assemblies and organize concerts, church moments and camps for classes.
